EDUCATION

Grand Valley State University   Allendale, MI
B.S. in Computer Science, GPA 3.82   *Aug. 2020 – August 2024*

EXPERIENCE

Server/Host   September 2023 – Present
Fuji Yama Japanese Steakhouse   *Grand Rapids, MI*
- Managed hosting and serving for hibachi grill dining, enhancing guest experiences through attentive service and efficient seating arrangements.
- Trained new staff on restaurant procedures, menu details, and customer service best practices, contributing to a cohesive and efficient team environment.
- Addressed and resolved customer inquiries and concerns, maintaining high standards of restaurant ambiance and guest satisfaction.

Shift Manager   February 2019 – June 2023
Tropical Smoothie Cafe   *Oxford, MI*
- Assisted with daily operations, reviewed inventory levels, monitored delivery of supplies, and inspected food preparation and store cleanliness.
- Managed activities of team members across multiple stations.
- Trained employees for management positions and resolved customer questions, issues, and complaints.

GM Design YM@D Program   February 2017 - October 2017
General Motors Technology   *Warren, MI*
- Collaborated in a group setting with peers and automotive designers.
- Gained further knowledge of the design workflow and procedures.
- Presented a completed car design and prototype at a General Motors design event.

PROJECTS

InnoValuation TST | *Flutter, Dart, Firebase*
- Contributed to a capstone project developing a mobile app to streamline Tuberculin Skin Tests, in collaboration with Rank One Computing. We integrated ROC Enroll for biometric security, employing computer vision for precise test analysis and data privacy. The project will be showcased at Reach Higher 2025, a GVSU project exhibition.

TALK Fitness | *Flask, SQLite, Bootstrap*   github.com/TALK
- Played a key role in a collaborative effort to design and implement a fitness application, focusing on integration of external APIs with comprehensive documentation.

Wordle Clone | *VueJS, CSS, HTML, Firebase*   wordle-app
- Engineered a replica of the NYT Wordle game, incorporating login function and a focus on the front end UI and game logic.

Personal Website | *Next.js, MUI*   kylesmigelski.com
- Developed a personal portfolio website using contemporary design aesthetics and interactive elements to engage visitors.
- Optimized the site for performance and search engines, leading to increased visibility and professional opportunities through higher search ranking and user engagement.

Trip Planner | *React, Firebase*   github.com/trip-planner
- Created a tool for personal and collaborative travel planning, incorporating features such as itinerary generation and a public rating system with an easy-to-navigate interface.
